

# BLUE ROCK

**Silver Oak's neighbor** is a winery to watch! Under the radar for the moment but not for long as they remind us of what Silver Oak was when they first started. Blue Rock wines certainly ranks among the most powerful, rich and balanced Cabernets from the Alexander Valley. The 100 acre hillside Estate is farmed sustainably and hosts a multiplicity of clones and Bordeaux varietals. The resultant wines are elegant and solidly proportioned, typically with aromatic notes of rose petal, black currant, lead pencil, and well-integrated vanilla; always rich and silky on the palate with sweet ripe tannins and a solid core beg for some bottle age.
